President's Message

At the King Chamber of Commerce, our members have always been our top priority, and our commitment to you has only increased during this period of uncertainty. We continue to monitor and assess new developments as the Province has declared a state of emergency due to COVID-19. As part of the declaration, the province is ordering closure of restaurants, bars, theatres and nightclubs, except for delivery and take out functions

Groceries and pharmacies are to remain open and other businesses are to continue operating. We are working with our partners and all levels of government to provide support for our local business community.

We also take this opportunity to encourage your continued support of our local shops and retailers, as well as our local restaurants and bars as and when they are allowed to re-open. Small businesses are going to need a lot of help in the coming days and I encourage you all to ShopKing.

I wish all of you continued health and wellness at this most difficult of times.

Angelo Santorelli
President
